

# CHAN DINH

Casselberry, FL | (689) 345-3588 | [chandin.h.jobs@gmail.com](mailto:chandin.h.jobs@gmail.com) | [LinkedIn](#) | [GitHub](#)

## PROFESSIONAL SUMMARY

Computer Science student at the University of Central Florida and AI/cybersecurity Solution Intern at Siemens Energy with experience developing RAG systems, LLM-enabled automation, operational technology demonstrations, threat-hunting workflows, and full-stack internal tools.

## EDUCATION

University of Central Florida | Orlando, FL

Computer Science, B.S. - In Progress

Seminole State College of Florida | Sanford, FL

GPA: 4.00

*President's List (6x) | Relevant coursework: Java, C, Calculus III, Physics II, Statistics*

## EXPERIENCE

OES CYS Solution Intern | Siemens Energy | Orlando, FL

Oct 2025 - Present

- Built a Python/PyQt audit-report automation system that generates standardized Word reports, improves reporting efficiency, and contributes to an estimated 80-90% improvement in margin-related process efficiency.
- Designed an interactive Next.js/React operational technology demonstration interface that visualizes industrial environments and makes OT concepts easier to explain during customer and internal presentations.
- Developed a human-in-the-loop agentic threat-hunting platform that reduce manual investigation effort and estimated monthly costs by up to 90%, from about \$37,500 to \$3,750.
- Supported global sales engineering teams with bidding, scoping, and proposal development while collaborating with cybersecurity specialists, software engineers, and sales stakeholders to turn technical requirements into usable applications and documentation.

SWEP Intern | Siemens Energy | Orlando, FL

Jun 2025 - Sep 2025

- Developed an internal AI-powered bid-support platform using RAG, embeddings, vector search, and MongoDB, reducing manual requirement-to-solution analysis time by more than 80%.

Mathematics Tutor | Seminole State College | Sanford, FL

Jan 2025 – May 2025

- Provide individual and group tutoring in algebra, trigonometry, statistics, and calculus; organize exam-review sessions with faculty and adapt explanations to different learning needs.

Mathematics Data Annotator | Highbrow Technology Inc | Contract

Nov 2024 - Jan 2025

- Reviewed and standardized complex mathematical datasets for AI training, reducing annotation errors by 15% while collaborating with a global quality-assurance team.

## PERSONAL PROJECTS

Escape Room Game | Next.js, TypeScript, WebSocket, MongoDB

Oct 2025

- Created a QR-based escape-room platform that allows teams to scan checkpoints, unlock puzzles, and receive synchronized progress updates in real time.
- Built WebSocket communication, MongoDB persistence, live organizer controls, and team-state tracking for puzzle completion and event status; deployed the platform during a six-hour event and supported approximately 4,600 requests.

Project Paemon | Nosu AI Hackathon - Best Personal Project

Jan 2025 - Feb 2025

- Co-developed a personalized AI companion web application that transforms user personality preferences into contextual conversations, custom character images, and generative audio experiences.
- Integrated Next.js, Python, OpenAI, Stable Diffusion, and generative audio services, and led front-end/back-end integration across a distributed hackathon team.
- Combined conversation, image-generation, and audio features into a cohesive user experience that earned Best Personal Project at the Nosu AI Hackathon.

## TECHNICAL SKILLS

**Programing Languages:** Python, Java, C, C++, JavaScript/TypeScript, SQL, HTML, CSS

**AI & Data:** RAG, LLMs, embeddings, vector search, PyTorch, OpenSearch, Azure AI Search, MongoDB, MySQL

**Frameworks & Cloud:** React, Next.js, Node.js, FastAPI, Flask, PyQt/PySide6, AWS, Azure, Docker, Kubernetes, Terraform, Git/GitHub

**Cybersecurity:** MITRE ATT&CK, Sigma, OT/ICS security, threat intelligence, threat hunting

## AWARDS & CERTIFICATIONS

**Leadership:** Event Organization Officer, IT Warriors | Aug 2024 - Present

**Awards:** Best Personal Project - Nosu AI Hackathon; AWS AI & ML Scholarship; AWS DeepRacer Student League Top 30 U.S.; Top 5 Individual - Intercollegiate Programming Competition; Phi Theta Kappa

**Certifications:** AI Programming with Python Nanodegree, Udacity; Microsoft Office Specialist
